REMARKS

New claims 22-37 represent features that are neither  
anticipated nor suggested by the cited references.

In case Examiner were to reject any of the now pending  
claims under 35 USC 103, Applicant requests of Examiner to  
carefully adhere to the express provisions of MPEP 706.02 with  
respect to each and every claim so rejected. Without properly  
complying with MPEP 706.02, Examiner leaves Applicant to guess  
what Examiner might have had in mind, which makes in very hard  
for Applicant to analyze and evaluate Examiner's response; which  
also would mean that Applicant be deprived of due process.
